

THE NUGGET

Engraving Demonstration

One of our talented newer members, Rob, gave a fantastic demo of his engraving setup on Saturday, June 8th. He brought gorgeous examples of his work and his engraving rig to let members try their hand at the art. Rob did a masterful job of explaining how to form patterns with the engraver, illustrating his points with great diagrams, and answered lots of questions from the gathered club members. Thanks, Rob, for really going all out to show the club a fascinating skill!
